

Free Roof Inspection Checklist

A field-ready checklist for roofing contractors — cover every point that matters, avoid callbacks, and give homeowners a report that builds trust.

Exterior — Shingles & Surface

- ☐ Missing, cracked, or curling shingles
- ☐ Granule loss (check gutters and downspouts for buildup)
- ☐ Algae, moss, or lichen growth
- ☐ Signs of hail or wind impact damage
- ☐ Nail pops or exposed fasteners

Flashing & Penetrations

- ☐ Flashing around chimneys, skylights, and vents
- ☐ Sealant condition around all roof penetrations
- ☐ Valley flashing for rust, gaps, or improper overlap
- ☐ Pipe boots for cracking or dry rot

Gutters & Drainage

- ☐ Gutters securely attached, no sagging
- ☐ Downspouts clear and properly directing water away
- ☐ Signs of water pooling or improper slope
- ☐ Debris buildup in valleys or gutter systems

Attic & Interior

- ☐ Signs of water staining on ceilings or walls
- ☐ Attic ventilation — soffit and ridge vents clear
- ☐ Insulation condition and even coverage
- ☐ Daylight visible through roof boards (in attic)
- ☐ Mold, mildew, or musty odor

Structural

- ☐ Roof deck for soft spots or sagging
- ☐ Fascia and soffit boards for rot or damage
- ☐ Overall roof line — even and free of dips

Documentation & Close-Out

☐	Photos taken of all problem areas
☐	Estimated remaining roof life communicated
☐	Written report with photos delivered to homeowner
☐	Follow-up quote or repair recommendation provided
